

Anka Ek Orange Trivia Project, Price and Case Details

Sitenname = <https://theorangegames.com/orangetrivia>

Description:

The game is a Quiz game, where user can enroll and play trivia. The game has different type of game play such as play solo, random play, play with friends (has not been developed yet) and a main feature of this game is **Tournament**. User can enroll and play tournament. The tournament consists of rounds, redeems, sponsored video and it information. User can register for tournament playing through esewa and there are different round to be played until the winner is one which can be added by admin. The game also even consists of 2 admin dashboard one is older version and another is newer which is fully features and multi features. Admin can perform all kind of CRUD operation and also view different report with filter option for each data. The Application is PWA based application as well.

Case 1: Mr. Vasistha, Mr. Sanjog and Mr. Bibek (developer and project head) had a meeting. According to Vasistha time span was about 10 day. It was already discussed that project can take up to 15 days due to vast requirements. On that meeting we discussed finishing Tournament feature of the project as this was their first priority. So, for development of Tournament Feature and Other design related to Tournament dashboard Only, I send them the Quotation for 10 days. The Quotation has the features that have to be developed in the game for tournament. Following is the Quotation Report which was sent to Mr. Sanjog Kafle who introduces Mr. Bibek and Mr. Vasistha.

Quotation for Quiz Application Online

Quotation-for-Quiz-Application-
Online.pdf

The conclusion they got, the project (tournament) will be finished within 10-15 days of the payment is made on time.

Note: Even some payment should be made before doing Project, Due to brotherhood relation no payment was made before starting the project.

Case 2: The design was on figma, and the project was developed rapidly and even after 35% of the tournament development (till 4th date), no payment was made and the payment was not made up to 9th days. Finally some payment was made and on the other hand the features kept on increasing, they want some of the increased featured to be on site which could take more time and they agree to have more time for the features. On one meeting, they were telling about the entire minor bug so the developer told 'don't panic, everything will be meet', and Mr. Vasistha suddenly closes the video meeting. Vasistha didn't join and did not try to have a meeting after that meeting. So the project didn't run well and on the figma design features kept on increasing. After another meeting in live, Mr. Vasistha ask to stop developing tournament let's do it later and start other project such as solo play, random play and all other vast features which was not even included in Quotation requirement. Mr. Bibek tries to ask for meeting of financial matters but Mr. Vasistha and Mr. Adhip (brother of Vasistha) said we will do it later lets first do some work on the project. So Mr. Bibek Agreed and started the project.

Now let's compare the new project requirements

1. 1st Discussion Quotation Features

Quotation for Quiz Application Online

Requirements-

- Register Panel.
- Login Panel.
- Admin Panel for Uploading Questions and manipulating site.
- User Panel.
- Elimination History.
- Question History.

 - RESTFUL API
-
- Progressive web Application
 - And many more extra features

Templates and Design

- More than 80 Pages with Premium level interface
- More than 15 Modal

Note: They even desire to have AI feature in Tournament where system automatically gives a Bye to one player. And Figma Design even has more features to be developed on the system. Following is the Figma Design given by them.

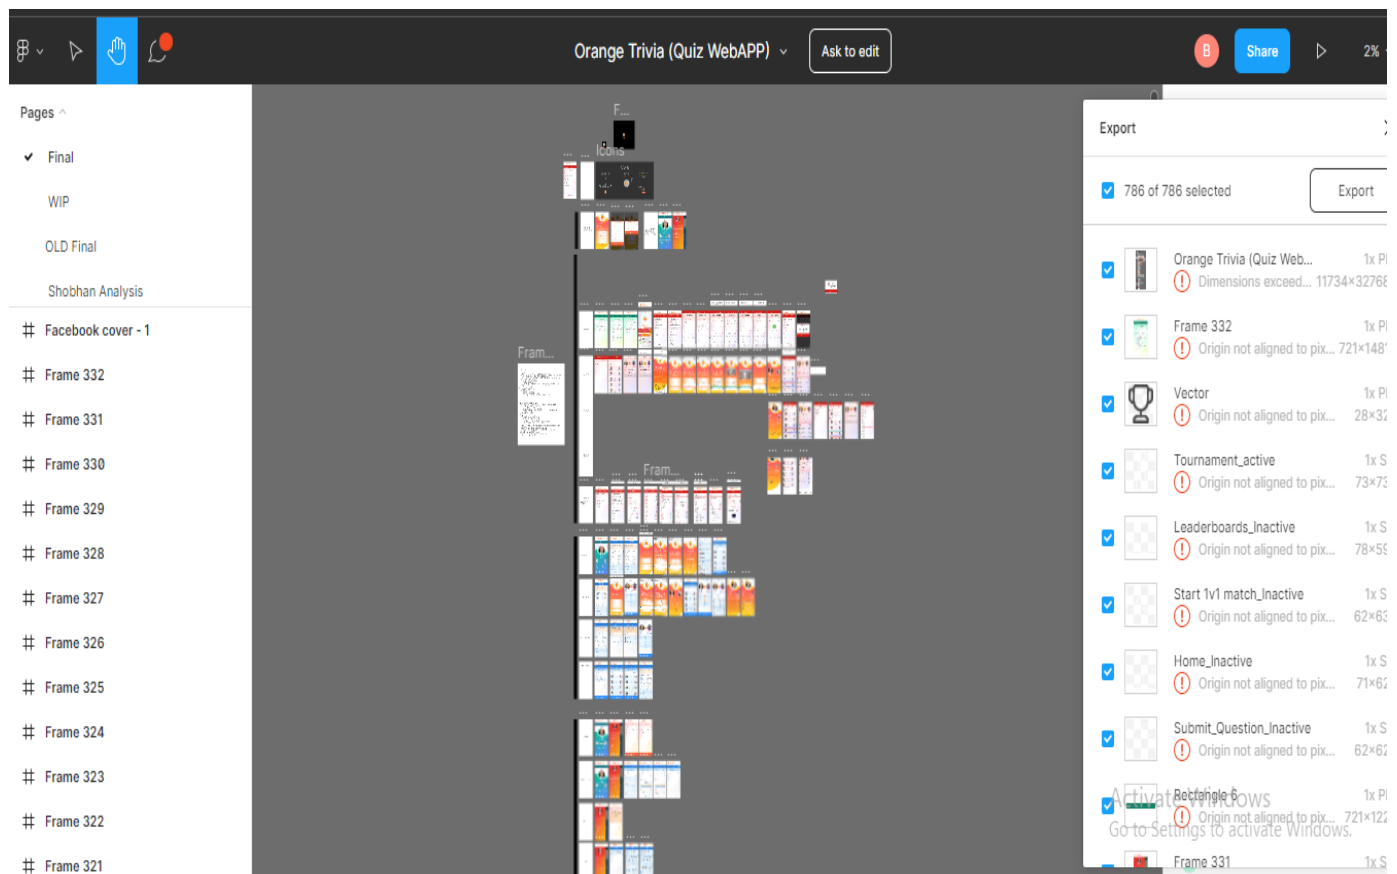

After 70% completion of the project Mr. Bibek ask for a meeting of financial matter because there is a lot that has been done in project with very less payment. Now, they ask for the quotation and Mr. Bibek Sent quotation according to their requirements.

Templates and Design

- More than 80 Pages with Premium level interface
- More than 15 Modal

Total Costing for development	Rs. 4,50,000
Discount	Rs. 1,50,000
Total	Rs.3,00,000 (Excluding VAT)

Look at their Figma Design:

Whole Project Evaluation table by IT Team

PHP/Frontent	Rs.4,50,000
Node.js/Frontent	Rs.6,00,000
Python Django/Frontent	Rs. 5,50,000

Case 3: Mr. Vasistha and Adhip started to torture Mr. Bibek, they want whole 5 lakh project in the same rate of tournament features only. They called Mr. Bibek and started giving him torture. Although, the project was only about tournament feature. Mr. Adhip torture a developer saying you should complete all the features and whole game in just Rs. 1,40,000 where the cost estimation of the project is no less than 5 lakh.

Victim - Mr. Bibek Dhakal

Criminal – Mr. Vasistha and Mr. Adhip

Loss bear by Bibek Dhakal according to the development- Rs. 2,50,000

The report has been approved by the senior law agents and the advocate of Kathmandu Court “Khilendra Gautam”. He says, I am ready to fight with this kind of criminal who are torturing people for their benefit. This should be solved.

The Following organization is in support of the victim.

- 1. Amnesty International (Human Right)**
- 2. 100's Group (The Group of Social Activist)**
- 3. Hamro Team Nepal (NGO)**
